

Project: Giles County Water & Environmental Infrastructure

Recipient: U.S. Army Corp of Engineers, Nashville District

Address: U.S. Army Corps of Engineers, Nashville District, P.O. Box 1070, Nashville, Tennessee 37202

Subcommittee: Energy and Water

Amount requested: \$300,000

Project description: Giles County is at the Southern border of Middle Tennessee where water supply is an increasing concern.

Funding (\$300K) must be included in the Construction appropriations to complete a letter report, execute a design agreement, and initiate growth projections, needs analysis, alternatives analysis and NEPA compliance.

The project will benefit the 4th District/U.S. Government by contributing to the goals of supplying a potable water system to rural communities.
